In 2010 Austin topped some incredible national charts with rankings like the Brookings Institutes "Highest Ranked Recovery," Newsweek's "Top 10 Recovery Cities," CNN Money's "Recession Proof Cities," and Kiplinger's "#1 City of the Next Decade."

As a result, the CBS Evening News with Katie Couric will feature the Chamber's Dave Porter, SVP of Economic Development and a few of our 2010 success stories on this Friday's program. Featured will be the \$3.6 billion expansion of Samsung Austin Semiconductor and the corporate relocation of SunPower Corporation.
